

10 Weeks — 5 pairs of earrings

Marthe Roberts/Shea

This Fall class couldn't happen at a better time! Earrings make great gifts — especially for Holiday giving! You will learn how to make several different earring designs that range from less complicated to more involved. Piercing, forming, tube riveting, texturing & wire contouring are a few of the skills that we will employ. Some projects will use "pre-fabricated" findings. On other pairs you will learn how to make your own wires and catches. By the end of the semester you'll have five new pairs of earrings to wear or give as meaningful, hand crafted gifts!

Feel free to use your own suppliers. For supply reference I am use Riogrande item #s.
